

# I Love This School

Lyrics Jason Marshall

Adapted from Joel Plaskett's "I Love This Town"

Listen up kid  
Make the most of your time  
Start a new chapter  
Get to class when bells chime  
You'll get much further  
When you see it's cool  
There's a reason to love going to school

Open your mind, you've got lots of grey matter  
This is the best time of your life ever  
Get involved in the culture  
'Cause this place rules  
There's a reason that I love this school

I saw you learn in the early days  
Noticed your potential, it's not a cliché  
Wish you success always

I joined some clubs and some sports teams  
Doesn't mean that I am at all mainstream  
There's many activities to keep me fuelled  
There's a reason that I love this school

Learned mathematics  
Read Shakespeare's plays  
Studied civics and art  
Wrote many essays  
There's homework each night  
That sounds a bit cruel  
But hey not everything is great about school

I saw you learn in the early days  
Noticed your potential, it's not a cliché  
Wish you success always  
it's true

Heather and me  
Are rocking up here  
Sharing how we feel  
Come on all you Saints cheer  
Feeling this way don't make you a fool  
These are the reasons that I love this school  
These are the reasons that I love this school  
These are the reasons that I love this school
